Harry,
I got the action
wrong. It was mine, not
yours. But you got a copy.
I'd appreciate any
thoughts.

MEMORANDUM FOR: Comptroller

FROM: John N. McMahon
Executive Director

SUBJECT: 19 February Meeting with Jim Bush

Maury:

DD/A REGISTRY
FILE: 32

Here are some of the items I derived from our conversation with Jim today which should be factored into my statement principally or in background material as appropriate.

1. Comments regarding my involvement with DDO, DDI, Executive Director. This could be handled extemporaneously-- I defer to you. I would like to have stipulated in the statement, however, where the Agency is going; it should reveal how the budget is geared to address the issues before us and further explain how the budget will help us achieve our goals and objectives.

2. Manpower. He spent some time in identifying Robinson's concerns re manpower and we should be able to show how the manpower increases fit into the issues and needs as we see them and our objectives in building the Agency.

3. According to Bush we seem to be short in addressing Third World needs and overseas HUMINT, or to put it another way, a great deal of manpower is going against the USSR.

4. Find me some nuggets.

5. Be able to explain the NPIC upgrade.

10. Additionally, explain our training increases and need for languages. It would be useful if we had some statistics on the last two/three years regarding training and number of people taking language training and what we forecast in FY '83.

11. Some comments on our clandestine collection technically and items of innovation. This might be a good place for some nuggets. I would like a few good examples of close-in commo support assisting operations--DDO can provide, or OSO for that matter.

12. Explain the rather large dollar increases in logistics, ADP and of course covert action. For my own benefit I would like to see a line item presentation of manpower and dollars against either goals, objectives or targets.
